

# Commercial Pilot Program Path

(1500 hour ATP Plan)

\*ATP eligibility requires 1500 flight hours. This can be reduced to 1250 with an associate's degree, 1000 with a bachelor's degree or 750 with prior military pilot experience. These numbers do not reflect the cost of obtaining a degree through university-affiliated programs and is assuming a student trains directly through Sterling Flight Training's in-house program.
